

**REMARKS**

Claims 1-20 remain pending in the present application. Claims 1, 6 and 17 have been amended to contain the limitations of claims 4 and 9, to indicate that the claimed fibers are multiple component fibers. No new matter is added.

**Rejection under 35 U.S.C. § 102(b) over JP 02-104755**

Claims 1-3, 6-8 and 17-20 stand rejected under 35 U.S.C. § 102(b) as anticipated by JP 02-104755 (hereinafter JP '755). Applicants traverse this basis for rejection and respectfully request reconsideration and withdrawal thereof.

Applicants submit that the rejection is moot in view of the amendment to recharacterize the claimed fibers and webs as 'multiple component', as set forth in original claims 4 and 9, which were not subject to rejection on this basis. Withdrawal of the rejection is requested.

**Rejection under 35 U.S.C. § 103(A) over WO 01/09425**

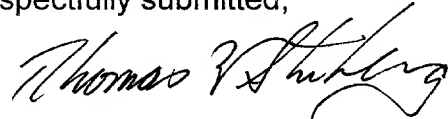

Claims 1-20 stand rejected under 35 U.S.C. § 103(a) as obvious over WO 01/09425 (hereinafter WO '425). Applicants traverse this basis for rejection and respectfully request reconsideration and withdrawal thereof.

The rejection is improper as WO '425 is unavailable as a reference under any subsection of 35 U.S.C. § 102. The priority date of the present application is based upon filing of the provisional application on May 11, 2000, which predates the publication date of WO '425; therefore the cited reference is unavailable under 35 U.S.C. § 102(a). Likewise, WO '425 is unavailable under 35 U.S.C. § 102(b) due to the priority date of the present application; and unavailable under 35 U.S.C. § 102(e) since the inventive entities of the present application and the reference are identical (see Applicants' request for change of inventorship filed 17 January 2002, copy attached).

Withdrawal of the rejection is requested.

In view of the foregoing, allowance of the above-referenced application is respectfully requested.

Respectfully submitted,
